Details

Angel J. played for Lobi stars FC, Nigeria Feeders Team in 2009/2010 s (Professional) season and currently playing with L & M Football Academy. He is an attacking midfielder and is a player who is known to possess real skill and potential. He is tipped for great things. His efficiency in front of goal has always been of a high caliber.

Strength

Angel J. J. strength lie mainly in his technique. This young player is a two-footed player. He can shoot, dribble, control, and cross the ball with both feet. His techniques together with his dribbling skills make him of a high caliber.

Weakness

Angel J. J. weakness is his body strength and lack of exposure to foreign players.

MIDFIELD

Ball Control: He has excellent close ball control and quick feet, retaining possession well, even when tightly marked

Running with the ball: His runs from midfield are usually lethal and he is almost impossible to tackle when he gets his head down. His balance when running at speed is incredible

Attacking Ability: He is very attack minded and always look to find space so that he can get at his man. He is very quick in supporting the forward players,

Defending Ability: He is very fast in responding to defensive situations and always determined when tracking back. He is full of strength to win challenges

Heading: He has the strength to contest with head but he is working on the accuracy as most of his heading usually co off target

Tackling: When competing for the ball, he is always aggression and determination to win the challenge.

ASSESSMENT

Comments

I'm recommending Angel J. J. for any team that is looking for a left flank player, attacking midfielder, or a central striker. He will be a perfect transfer for a team that is ready for his services

Recommendation

I personally recommend Angel J. J. for any professional level football.
