### **Details**

Desmond spent five years playing for Gray FC and Akpabuyo United FC. He is an excellent reader of the game, he has great positional sense and shows composure on the ball. Desmond also boasts real versatility but his finest asset is his impressive stamina and determination to cause aggressive attacking threat on any defence. He is very good in set-pieces as well as accurate and unstoppable shots on target. His height is an additional value, which gives him advantage in scoring with head and Chest-work. He is a utility player with very good pace.

## Strength

As a striker, Desmond offers a genuine attacking outlet from the center and both wings with good delivery and that is why we call him **Danger point man**. His pace is a fantastic asset and he is strong in the air couple with his height. He has naturally charged stamina. He has a good goalkeeping experience, which could serve as an emergency response.

## Weakness

Too much energy sometimes caused him to commit fouls.

## MIDFIELD

**Ball Control:** He has a good ball control and as a striker, he has a quick feet, and very good in retaining possession.

**Running with the ball:** He likes to cut in and out with the ball to beat the defenders.

**Attacking Ability:** He is very attack minded and always like to shoot and to make spectacular crosses when playing from the flank. He is a good free kick, corner kick and spot kick taker. Sometimes his teammates call him (**attacking weapon**).

**Defending Ability:** His defending and goalkeeping experience, his relentless work-rate, his speed in responding to defensive situations and fearless when tracking back is of high caliber.

**Heading:** He is very strong when contesting with head. Also, his height has given him an added advantage over the defenders.
