**Summation:** Good frame and size, very fluid delivery. Excellent command and control (very limited walks) with all pitches, majority of whiffs came from breaking pitches. Delivery and release point very consistent and smooth. Solid presence and game place with runners on base. Dominant pitcher in highest state class level (5A) with OBA about 100 points less than national ave. (.174 v .270). Above average hitter, good plate and zone discipline with smooth level swing. Overall very talented and polished pitcher, but need to see how performs against better competition. Seems first committed to AF Academy/military career, so probably not worth draft pick based on commitment priority.
