<b>Arm/Strength</b>	50	55	<b>OAE</b>	50	55
<b>Arm/Accuracy</b>	50	55			

**Summation:** Mature, strong bodied RHer with ceiling of #1-2 starter if develops plus secondary pitches, and floor of a high leverage reliever. Plus FB that could become Plus-Plus to Elite, potential to hit triple digits, but needs to develop swing and miss movement. Not many secondary pitches, ave. slider and CU. Delivery is very compact, quick and powerful, pushes off the rubber with his glove and the ball aligned with his chest and then takes the ball behind his body, leaving his glove at the same level, and then thrusts to his release. No wind up or placing his glove higher at all. Pitching in lower level (Class 3A out of 5), overpowers batters with velocity (ave. 52% K rate), batters catch up to him after 2nd/3rd time through order. Above ave. hitter, but needs to focus on pitching for career prospects. Could be a potential early Day 2 overslot but definitely developmental project. Needs to develop as a pitcher, right now just a hard thrower (saw glimpses of "pitching" in sole State Playoff game v. top regional seed). Been working with Sean McCort, owner at THROWformance in Castle Rock, CO during the prior offseason. A very nice and genuine person.

**Scout Name:** Alex Marks

**Date Seen:** 04/04, 04/09, 04/13, 05/17
